

ML-S

Leak Testing Control System

The System is made up of a control unit designed for managing Leak Testing process of Containers, Human Machine Interfacing and pneumatic actuators. It can be equipped with one or more Testing Chamber under Vacuum or Pressure. On pressing the Cycle Start button the Leak Testing process is run. Whether the result is Conforming or Non Conforming, the HMI clearly displays the status on the screen. The Measurement System provides both a "gross" and a "fine" leak test detection range.

Key Objectives and Benefits

Technical Specifications

Tested Container	Drums.
Container Filling	Empty.
Container Content	
Machine Type	Indexed Leak Tester.
Testing Methods	
Max speed	Cpm
Min Container Dimension	
Max Container Dimension	
Testing Heads Number
